

Lesson 1: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 1.

Lesson 2: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 2.

Lesson 3: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 3.

Lesson 4: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 4.

Lesson 5: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 5.

Lesson 6: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 6.

Lesson 7: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 7.

Lesson 8: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 8.

Lesson 9: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 9.

Lesson 10: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 10.

Lesson 11: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 11.

Lesson 12: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 12.

Lesson 13: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 13.

Lesson 14: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 14.

Lesson 15: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 15.

Lesson 16: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 16.

Lesson 17: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 17.

Lesson 18: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 18.

Lesson 19: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 19.

Lesson 20: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 20.

Lesson 21: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 21.

Lesson 22: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 22.

Lesson 23: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 23.

Lesson 24: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 24.

Lesson 25: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 25.

Lesson 26: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 26.

Lesson 27: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 27.

Lesson 28: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 28.

Lesson 29: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 29.

Lesson 30: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 30.

Lesson 31: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 31.

Lesson 32: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 32.

Lesson 33: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 33.

Lesson 34: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 34.

Lesson 35: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 35.

Lesson 36: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 36.

Lesson 37: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 37.

Lesson 38: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 38.

Lesson 39: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 39.

Lesson 40: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 40.

Lesson 41: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 41.

Lesson 42: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 42.

Lesson 43: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 43.

Lesson 44: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 44.

Lesson 45: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 45.

Lesson 46: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 46.

Lesson 47: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 47.

Lesson 48: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 48.

Lesson 49: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 49.

Lesson 50: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 50.

Lesson 51: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 51.

Lesson 52: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 52.

Lesson 53: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 53.

Lesson 54: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 54.

Lesson 55: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 55.

Lesson 56: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 56.

Lesson 57: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 57.

Lesson 58: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 58.

Lesson 59: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 59.

Lesson 60: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 60.

Lesson 61: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 61.

Lesson 62: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 62.

Lesson 63: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 63.

Lesson 64: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 64.

Lesson 65: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 65.

Lesson 66: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 66.

Lesson 67: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 67.

Lesson 68: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 68.

Lesson 69: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 69.

Lesson 70: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 70.

Lesson 71: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 71.

Lesson 72: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 72.

Lesson 73: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 73.

Lesson 74: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 74.

Lesson 75: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 75.

Lesson 76: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 76.

Lesson 77: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 77.

Lesson 78: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 78.

Lesson 79: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 79.

Lesson 80: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 80.

Lesson 81: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 81.

Lesson 82: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 82.

Lesson 83: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 83.

Lesson 84: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 84.

Lesson 85: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 85.

Lesson 86: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 86.

Lesson 87: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 87.

Lesson 88: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 88.

Lesson 89: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 89.

Lesson 90: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 90.

Lesson 91: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 91.

Lesson 92: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 92.

Lesson 93: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 93.

Lesson 94: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 94.

Lesson 95: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 95.

Lesson 96: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 96.

Lesson 97: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 97.

Lesson 98: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 98.

Lesson 99: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 99.

Lesson 100: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 100.

Lesson 101: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 101.

Lesson 102: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 102.

Lesson 103: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 103.

Lesson 104: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 104.

Lesson 105: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 105.

Lesson 106: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 106.

Lesson 107: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 107.

Lesson 108: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 108.

Lesson 109: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 109.

Lesson 110: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 110.

Lesson 111: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 111.

Lesson 112: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 112.

Lesson 113: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 113.

Lesson 114: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 114.

Lesson 115: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 115.

Lesson 116: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 116.

Lesson 117: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 117.

Lesson 118: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 118.

Lesson 119: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 119.

Lesson 120: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 120.

Lesson 121: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 121.

Lesson 122: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 122.

Lesson 123: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 123.

Lesson 124: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 124.

Lesson 125: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 125.

Lesson 126: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 126.

Lesson 127: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 127.

Lesson 128: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 128.

Lesson 129: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 129.

Lesson 130: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 130.

Lesson 131: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 131.

Lesson 132: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 132.

Lesson 133: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 133.

Lesson 134: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 134.

Lesson 135: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 135.

Lesson 136: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 136.

Lesson 137: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 137.

Lesson 138: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 138.

Lesson 139: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 139.

Lesson 140: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 140.

Lesson 141: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 141.

Lesson 142: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 142.

Lesson 143: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 143.

Lesson 144: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 144.

Lesson 145: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 145.

Lesson 146: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 146.

Lesson 147: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 147.

Lesson 148: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 148.

Lesson 149: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 149.

Lesson 150: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 150.

Lesson 151: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 151.

Lesson 152: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 152.

Lesson 153: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 153.

Lesson 154: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 154.

Lesson 155: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 155.

Lesson 156: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 156.

Lesson 157: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 157.

Lesson 158: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 158.

Lesson 159: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 159.

Lesson 160: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 160.

Lesson 161: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 161.

Lesson 162: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 162.

Lesson 163: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 163.

Lesson 164: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 164.

Lesson 165: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 165.

Lesson 166: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 166.

Lesson 167: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 167.

Lesson 168: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 168.

Lesson 169: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 169.

Lesson 170: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 170.

Lesson 171: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 171.

Lesson 172: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 172.

Lesson 173: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 173.

Lesson 174: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 174.

Lesson 175: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 175.

Lesson 176: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 176.

Lesson 177: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 177.

Lesson 178: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 178.

Lesson 179: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 179.

Lesson 180: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 180.

LEARNING TARGETS

Learning targets for Page 180

- ☐ Identify and analyze key patterns accurately
- ☐ Apply standard problem-solving strategies in context
- ☐ Explain mathematical reasoning clearly using visual models

Lesson 181: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 181.

Lesson 182: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 182.

Lesson 183: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 183.

Lesson 184: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 184.

Lesson 185: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 185.

Lesson 186: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 186.

Lesson 187: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 187.

Lesson 188: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 188.

Lesson 189: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 189.

Lesson 190: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 190.

Lesson 191: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 191.

Lesson 192: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 192.

Lesson 193: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 193.

Lesson 194: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 194.

Lesson 195: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 195.

Lesson 196: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 196.

Lesson 197: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 197.

Lesson 198: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 198.

Lesson 199: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 199.

Lesson 200: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 200.

Lesson 201: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 201.

Lesson 202: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 202.

Lesson 203: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 203.

Lesson 204: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 204.

Lesson 205: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 205.

Lesson 206: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 206.

Lesson 207: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 207.

Lesson 208: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 208.

Lesson 209: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 209.

Lesson 210: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 210.

Lesson 211: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 211.

Lesson 212: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 212.

Lesson 213: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 213.

Lesson 214: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 214.

Lesson 215: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 215.

Lesson 216: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 216.

Lesson 217: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 217.

Lesson 218: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 218.

Lesson 219: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 219.

Lesson 220: Observe, reason and explain

Read the evidence carefully. Explain what you noticed, compare two possible answers, and test your reasoning with a partner. This is production audit page 220.
